

Dr. Dascombe,

I just wanted to say thank you for the professional manner in which you + your staff treated me during my recent surgery. I appreciate all the time you took to talk to me and explain everything. I felt very comfortable with you as my doctor. All of your nurses that I saw or talked with on the phone were always so friendly + made me feel as if I were important. I am very pleased with the outcome of my surgery and would highly recommend you to anyone considering the same surgery. Wish you all the best for your practice and much success with all your patients. Thank you again!
