

Dr. Nascombe,

This "Thank you" is 2 yrs overdue.

My husband and I deeply appreciate your kindness and concern shown me from the beginning when I was diagnosed with breast cancer, we were devastated.

but after our first visit to your office you made us feel that everything would be o.k. and believe me you have helped me feel like a whole person again.

God has really blessed me! Your kind manner and concern for your patients certainly is half the battle. Thank you so very much.
