# Thank You

Dear Dr. Dascombe,

It has been just over a year since I had my abdominoplasty. I still get pretty emotional when I think about the metamorphosis that you allowed my body to go through. I remember waking up in the recovery room, putting my hands on my tummy + crying with joy for the flatness.

I wish I had done it years ago - I just didn't know it would've made such a positive difference. Thank you, Thank you, Thank you.

I appreciate your skilled hands and your caring professionalism. I am not sure how many people take the time to really ↓

Let you know how important your work is, but I had to put my appreciation in writing. It is one thing to pay the bill + another to acknowledge, but the written word signifies + makes more of an impact.

Keep up the excellent work! I will continue to hang on you and the entire staff and facility. You have the ability to "change" people and that is such a "gift". I could NEVER thank you enough!

Respectfully
